Dear Madam:

I should of gotten this report and check to you sooner, but we were removed from plane at Detroit and had some time getting home is reason you didn't get this report on first mail.

It was a bad break for you that you didn't win the second half in the Negro National League, it would of meant a lot of money for you for I think you and the Grays would really drawn some crowds in a play off.

We thank you for the Detroit game and we both would of got more money with the breaks going our way, but that is baseball.

Hoping you had a good year financially, I am,

Yours truly,

T. Y. Baird
